

# Virginia Mental Health Access Program *Recognition Badge*

## What is the VMAP Recognition Badge?

The Virginia Mental Health Access Program (VMAP) is pleased to offer a Recognition Badge to providers who have completed one or more of VMAP's intensive education programs. This digital badge serves as a symbol of their personal and practice commitment to improving pediatric mental health. Any primary care provider (PCP) treating patients 21 and under in Virginia is eligible to participate in these education opportunities.

## How To Receive a VMAP Recognition Badge

A provider must have completed one or more of the following education programs:

- VMAP ECHO cohort (where they attended at least 80% of the scheduled sessions)
- VMAP QI Project
- VMAP REACH PPP 3-day training and attended 10 of the 12 distance-learning calls afterwards

## VMAP Provider Education Opportunities

VMAP offers a variety of expert-led pediatric mental health trainings with optional CME and/or MOC credit, including these core offerings:

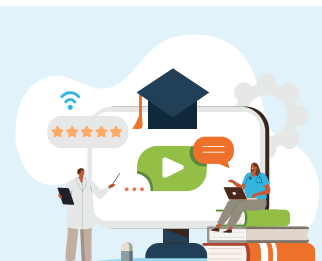

### REACH PPP

Mini-fellowship followed by case-based distance learning. Focused on identifying pediatric mental health concerns, managing psychopharmacology, and implementing treatment plans.

### VMAP ECHO

Virtual cohorts that meet monthly with tracks for specialized interests in pediatric mental health. Learn valuable specialty skills that you can bring back to your practice.

### Quality Improvement (QI) Projects

Designed to improve the quality of pediatric mental healthcare services. Completed with a VMAP ECHO cohort or as a standalone initiative.
